## About This Game

The year is 2051. Location: SATAZIUS, a long-abandoned planet.

The cruiser Agano was on patrol when it was attacked and stricken by a confederacy of space pirates that had established a base on SATAZIUS. The pirates attacked the Agano intending to steal the assault ship 'Trafalgar' that was stowed aboard the Agano, but the Trafalgar made a successful emergency escape.

The crew of the Trafalgar calculated the probability of successfully escaping the pirate overrun planet at 0.02%; the probability of charging into and successfully destroying the pirate base was 1%. Taking the higher probability escape plan, the crew of the Trafalgar turned their ship toward the pirate horde and began their charge into the heart of SATAZIUS.

SATAZIUS is an awesome old school side-scrolling arcade shooter by accomplished indie developer ASTRO PORT (Gigantic Army, Armed Seven, Supercharged Robot Vulkaizer), featuring an arsenal of 13 types of upgradeable weapons, power-ups, obstacles and boss encounters that arcade veterans will enjoy getting to grips with. Customize your ship by selecting two side weapons which can be cycled and deployed at any time during the action, and a charge attack to unleash massive destruction. There is a plethora of enemy ships to shoot down, tight spaces to navigate, power ups to grab, and bonuses to acquire. Featuring great stage design, a thumping techno soundtrack, fast and outstanding action, old school graphics and giant bosses, SATAZIUS is a true throwback to old-school arcade shoot 'em ups, replete with homages which will be instantly recognizable to fans of arcade shooters.

incomprehensible happy sounds\*. I don't know how you can expect to learn this kind of song with rocksmith... But if you already know it, it kind of cool to play over the 'band'.. Painkiller Hell & Damnation: Full Metal Rocket fast game with modern day graphics with easy controls that moves from location A to B to C and so on, good amount of action and special effects,

good game.

Personal Suggested Purchase Price: \$0.99 Or Less During Sale. Fun little game sits like angry birds in a way but from the other side <https://www.youtube.com/watch?v=6n4cBx4Iy-M&feature=youtu.be> .(Good Game) :D. This game is the start of a perfect game that I would love. The idea, the mechanics, and the story are great. I only wish there was more to come. Sadly, the developers split ways. Here's hope the only developer left will release new, or addons to the game. Wonderful game, and I will be watching this company.. Hard and fun Its another rage game. Music is good, and gameplay is amazing.. this game is an insult to other pinball games. i wouldn't buy this unless you can get it for free or under a \$1

Playing cards with friends is convivial. Gambling with meaningful stakes is tense and (to some) exhilarating. Playing cards against a machine for imaginary money is neither. To make up for that deficiency, a computer poker game needs to add a lot of bells and whistles. Governor of Poker 2 tried to do that with an investment mechanic and hats to unlock and a few other extra features. For me, it still wasn't quite enough to counterbalance the tedium of slowly playing cards against a collection of uninteresting opponents represented primarily by oversized hats.. pasha is my fav from here. what can i say ..

had this installed and thought oh thats nice looks good feels good and easy too use

done a scan found 6 out of date drivers so i checked them fully too make sure they were  
and seems like 3 of them were

so i went ahead and installed the replacements

2 days later when i went to use my usb 3.1 .. NOTHING

didnt think much so checked the port .. then the management page and bam drivers were bad ..

so i thought no worries went into driver booster and it said they were fine so tried too restore them  
NOPE

you cant

there is nothing you can do

had too reinstall the drivers myself took ages

USELESS software left me fumbling for repairs

UNINSTALLED

if this software was more upto date and didnt false flag and false install then the gui would be a nice thing too have  
but its not  
BAD APP

dont install this .. really DONT

. Killing Floor + Rise of the Triad = this. Cool and spooky game, nice graphics too. I got a bad ending so far but there are different endings! This game is totally worth \$0.55.

Gameplay: <https://www.youtube.com/watch?v=wRqOE-HafjY&t=6s>. Addictive casual game! :)). Great game with unique levels. How do you make a game though?

. A great way to support the devs for such an amazing free game, especially if you have 99 pennies just lying around.
