An accident in an air duct leads to his death. The adolescent found in a cave indicates that his mother Ana (Carla Ertmann) begins a new life. A year later, the detective Felipe Calderón (Francisco Rabal) has a vision in which a woman trapped in the rubble of a collapsed building tells him about the death of her child. The woman is Maria Paz (Jordi Mollà), a former member of the group of the anarchists "Militant" and presumed dead. She disappeared a year after the earthquake that toppled the buildings around the old harbor in Sant Just Desvern. However, Calderón detects in his family a series of events that, after being forgotten, are being transmitted to the second generation. Little by little, with the help of the family and friends, Calderón will be able to discover the true identity of the child and to understand the crime of the mother. Written by Claudio Carvalho, Rio de Janeiro, BrazilIn vitro assay of transcription termination in maize mitochondria. The transcription termination in vitro reaction of mitochondria from maize has been developed and characterized. This reaction requires 5S, 16S, and 23S rRNAs, the 32 kD subunit of the mitochondrial transcription factor TFAM, and the associated 14.5 S ribonucleoprotein particle. A detailed assay of the reactions in vitro has been developed, and has revealed that although there is no detectable nucleolytic degradation of the transcript or release of the 5' RNA strand from the elongating RNAP, the reaction is terminated predominantly by a limited process of dissociation of the TFAM-proteolipid-DNA complex from the DNA template.Q: Is there a way to install pycairo on ubuntu 12.04? i need to install pycairo on my server, i'm using ubuntu 12.04 and i have python 2.7.3 installed and i need pycairo. But when i try install pycairo with: sudo apt-get install python-cairo it says: E: Package 'python-cairo' has no installation candidate Any suggestions? A: There is no such package as "python-cairo". I am surprised by this error message. Try: sudo apt-get update sudo apt-get upgrade sudo apt-get install libcairo2-dev sudo apt-get 82157476af
