If you are not sure whether you need a new map update just contact us and we will help you decide. For all models up to 2010 partner models, the map update is for free of charge. For the 2011 partner models, the map update is for free in Sweden and Germany and the map update is for free in Norway for the 4x4 models. This map update will be for all other countries in 2011.

For all other countries, the map update is for 19.95 \$ ex VAT or 19.99 \$ ex VAT, depending on the model year. The map update contains some new fields and corrections to the original fields. The values of the original fields will be taken into account. The fields are: * POI names (new)* POI names (same as the original field)* POI categories (new)* POI categories (same as the original field)* Points of interest (new)* Points of interest (same as the original field)* Points of interest (same as the original field) Why update your map?We constantly take into account user feedback, take into account the latest

developments in navigation technology, we look to the future and also, on a regular basis we keep our map up to date. Here are a few things we have updated in the past: • POI data – We have added or updated quite a lot of POI data and removed many POI data. We have also improved the data in the POI categories. • POI categories – We have updated the POI categories based on comments from users. • Interaction – We have improved the interactive functions in the POI areas. • Weather – We have updated the weather information. • Google street view – We have updated the navigation routes to street view in several parts of the country, not only in major cities. The above mentioned fields have been changed/added/removed depending on where the update is applicable. The update is updated for all models up to 2010 partner models, the map update is for free of charge. For the 2011 partner models, the map update is for free in Sweden and Germany and the map update is for free in Norway for the 4x4 models. This map update will be for all other countries in 2011. For all models up to 2010 partner models, the map update is for free of charge. For the 2011 partner models, the map update is for free in Sweden and Germany and the map update is for free in Norway for the 4x 82157476af
