If the image is large enough, I find that it's easier to zoom in, select the area, and use the Eraser tool (keyboard shortcut: Ctrl + E) to remove the background. This may also work with the Paint Bucket tool, but it's more likely to leave a large-ish area of background. How do I specify the Eclipse export location for a JAR file? I have a Java application that uses libraries. In Eclipse, when I run the application, I get a message telling me that the libraries are not found. I've specified the libraries in the Java Build Path in Eclipse, but when I export the application as a JAR file, it does not include the libraries. I'm not sure how to specify the location of the libraries in the JAR file. You can add the libraries to the manifest, or use something like Apache Ivy to manage them. American Media Inc. (AMI), a network that is home to such hits as the Drudge Report, The Rush Limbaugh Show and Glenn Beck's The Blaze, is one of the largest publishers of conservative news in the country. But as AMI has come under scrutiny in recent years over its ties to Donald Trump and his supporters, its financial health has been in question. The company, once known for its "gotcha journalism," had been in a period of decline as of late. In 2013, AMI's revenue and operating income were in decline, according to an annual report, and the company was on the verge of a bankruptcy. But then Trump happened. In April 2016, the New York Times reported that AMI, which is led by David Pecker, Trump's longtime friend and longtime associate, had paid Trump and his campaign \$150,000 for his endorsement. AMI denied the report, and both Pecker and Trump denied any financial relationship between the two. AMI's revenue is expected to jump by 15 percent next year, to \$194 million, as the company's stable of conservative outlets (including the National Enquirer) grow in popularity, according to the report. The company is still working through its business challenges, according to the report, which was published Monday. AMI is facing a number of lawsuits, including one in California over its role in allegedly buying the silence of two women 82157476af
