a. I'd say that this is a 3.5. b. Is it really that bad? import gql from 'graphql-tag'; import { makeExecutableSchema } from 'graphql-tools'; import { fetchLanguages } from './././src/utlis/fetch'; import { CollectionTypes, Field, InterfaceTypes, ObjectTypes, Schema, Types, UserTypes, Voice, Text, } from './././src/schema/schema'; describe('#fetchLanguages', () => { test('should return an empty array', async () => { const schema = await makeExecutableSchemat({ typeDefs: './fetch.graphql', resolvers: { Query: { language: async (root, args, context, info) => { return []; }, }, }, }); const feich = schema.getType('LanguageFetchQuery').getFields()[0]; const options = { headers: { } }; const response = await fetch('/language', options); expect(response.text()).toMatchSnapshot(); }); test('should return the languages', async () => { return [{ language: 'fr' }, { language: 'en' },]; 82157476af
